THE PROBLEM

Merchants cannot meet Amazon's delivery standards anymore.

Legacy warehouses are
stuck in the past

3+ days click-to-delivery

Limited options

"Where is my order?"

Customer expectations
are rising

"Next-day" is the new standard

Mass personalization

Live tracking is everywhere

CONTEXT

A new e-commerce backbone is being built to thrive outside Amazon...

... And merchants were only missing a fulfillment solution!

VALUE PROPOSITION

Fulfillment for customer centric brands

bigblue

Enhance pre-purchase experience to increase conversion rate

Increasing brands sales by 86% with Fast Tags

Prime-like delivery badges create an incentive to convert. Sales increase by 40% on average and up to 86%.

Boosting checkout conversion with Delivery ETA

Precise delivery dates in the checkout flow to inform clients exactly when their product will arrive.

All the delivery options end-customers like

Free, Express, Standard, Green, Pickup point. Domestic and international. All the delivery options end-customers need are available in the Bigblue app.

Take control of your delivery operations to exceed buyers' expectations

Brands run their logistics effortlessly

We're a new kind of logistics partner, leveraging modern technologies to help brands scale fast and focus on their buyers.

Leverage our enterprise-grade logistics network

Bigblue's state-of-the-art automated warehouses in France, Spain, and the UK enable ultra-fast order preparation & shipping.

A return experience as an extension of the brand

A customized return portal for an immersive experience.

Drive repeat by offering a branded tracking experience

Build loyalty by setting up branded emails

Our tracking emails have an average open rate of 74%, far higher than regular marketing emails.

Marketing campaigns in tracking experience

We made it really simple for brands to leverage their post-purchase experience to generate more sales.

Precise order information to reduce support contact

Our emails highlight the most important information at each step of the delivery journey.

We SaaS-ified delivery.

Simple pricing. No more fixed costs.

1

Per-delivery fee

Pay for what you use.

2

Storage

Monthly per-item
fees.

3

Volume-based discounts

Get the best rates as
you grow.
