

Democratizing
access to real estate
expertise

PROBLEM

Property owners are mismanaging \$12.2 trillion in real estate.

Overpaying

65% of owners
are overpaying on
real estate expenses.

Complexity

84% of owners don't
understand the financial products
associated with real estate.

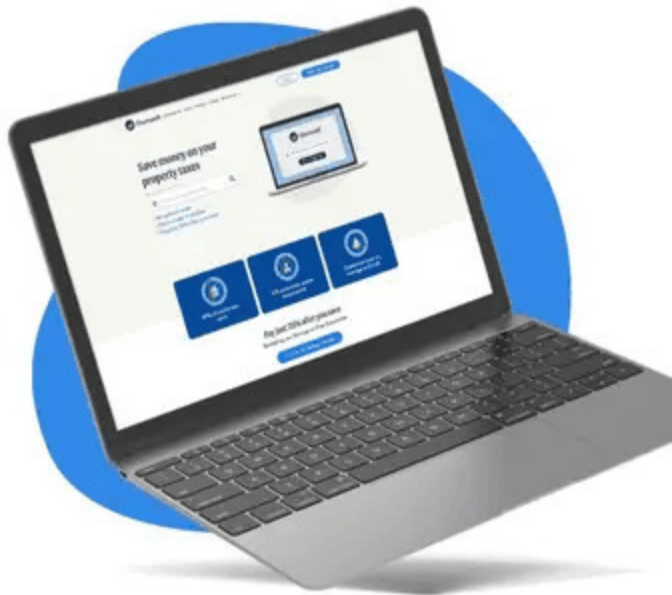

Access to Expertise

Real estate expertise or
financial advice **expensive**
and **inaccessible** to most.

SOLUTION

Manage your largest asset like an investor.

- **Fast and easy online solution** for property owners to track their asset and expenses
- **Automate complex processes** to extend access to the customers traditional providers can't afford to service
- **Personalized targeting** using machine learning, to reach property owners who can save, and help them save more

START WITH PROPERTY TAXES

Property owners overpay on property taxes by \$40 billion each year.

Ownwell's property tax monitoring service only
charges a 25% contingency fee when reducing taxes

WHY NOW?

**Property owners
are cash-strapped**

Property owners
are looking for
more ways to save.

**Real estate
market volatility**

Due to changing property
values, more properties
are overassessed, causing
more owners to overpay.

"The New Normal"

The property tax appeal
process has gone virtual,
making our service more
scalable than ever before.

Google Reviews ★★★★★

★★★★★ Diana B., February 2021

This was a great deal. We saved approximately \$1600 on our taxes and the fee was worth the money. Every time I sent an email to ask a question, the company responded within several hours. Will continue to do business with them!

★★★★★ Sudhir S., October 2021

Ownwell reached out to me to offer their service. Though I was initially skeptical, they did reduce the assessed value of my property, and sent me the proof as well. I recommend them.

★★★★★ Robert H., January 2021

The Ownwell is the Real Deal! I recently challenged two property tax assessments and for the first time. After reaching out to a handful of companies, the Ownwell was so clearly the most professional, easiest to communicate with, and best value. One of our appeals is still pending due to the LA County backlog and the other quickly came back in full agreement with the Ownwell's valuation proposal, saving us thousands of dollars this year and ongoing! The company's process is both streamlined and with highly personal service. I can't recommend working with this team enough.

★★★★★ Mark B., April 2021

Easy to work with, everything was explained clearly and they responded promptly when questions came up. Definitely well worth working with!

★★★★★ Mehmet A., February 2021

I was very frustrated about my county increasing the property value assessment but never thought the process to appeal would be that easy. One day I saw a mail from the Ownwell and had some questions. Sent them an email and got a response within 30 min and submit my appeal from their website. It took roughly 5 min and once I submitted the appeal I totally forgot about it. This morning (after ~2 months) I got an email that my property value assessment was adjusted more than 10% which reflects tax savings to close \$1000 for this year. Great service and very easy to use and also you only have to pay them once you win the appeal. Highly recommend them.

★★★★★ Geneva B., November 2020

Great business. I'd been suspicious for years that my property taxes were higher than they should be—but appealing seemed too contentious and time consuming. The city's valuation of my home went down by tens of thousands of dollars. I'm so grateful!
