- ▶ Incorporated as a UK company in March 2020, [REDACTED] raised to date
- ▶ Chasing \$[REDACTED] TAM ([REDACTED]% CAGR) by [REDACTED] by selling [REDACTED]

OUR MISSION: MAKE CULTIVATED MEAT THE SUSTAINABLE AND AFFORDABLE CHOICE, FOR EVERYONE.

THE OPPORTUNITY TO DISRUPT A TRILLION-DOLLAR INDUSTRY

CULTIVATED MEAT REPRESENTS A STEP-CHANGE IN FOOD PRODUCTION TECHNOLOGY

Cultivated Meat Market Dynamics

Based on estimates from [redacted] and others

[redacted] percent of the [redacted] people surveyed in [redacted] said they would be prepared to pay a [redacted] premium for cultured meat relative to regular meat².

- 1.
- 2.

MEAT WITHOUT THE ANIMAL

STEM CELLS

Stem cells are taken from the animal and are used to grow the muscle and fat tissue of meat.

NUTRIENTS

A liquid growth medium provides the nutrients for cell growth – proteins, fats, sugars and salts.

BIOREACTOR

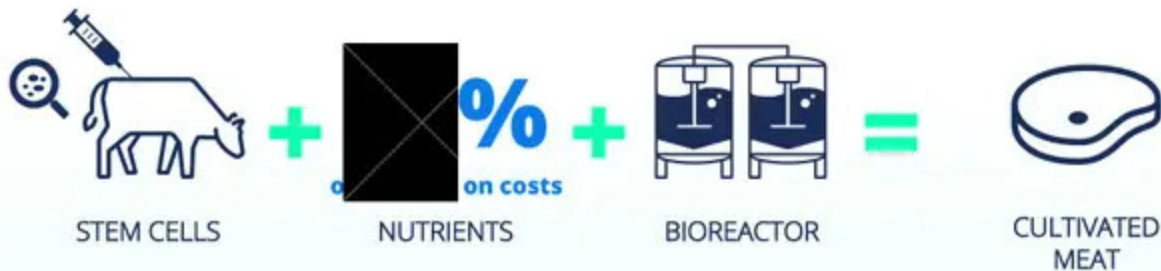

Bioreactors mix the cells and provide the right environment for cell growth, just as they do in the brewing industry.

CULTIVATED MEAT

GROWTH MEDIA IS THE KEY TO AFFORDABLE & SCALABLE CULTIVATED MEAT PRODUCTION

Multus creates the key **nutrients** to make cultivated meat **affordable and profitable**.

OUR SOLUTION:

MULTUS IS THE

Performance

Cost

Scalability

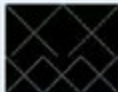

OUR OFFERINGS ARE TAILORED TO CULTIVATED MEAT COMPANIES IN THREE MARKET SEGMENTS TODAY

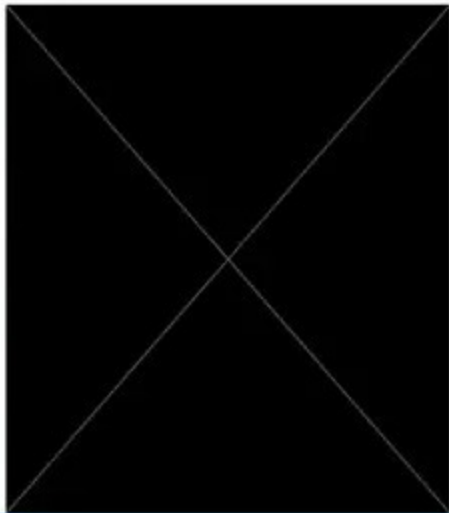

Scale-up stage companies

Pilot-stage companies

Research-stage companies
